

Muldoon's Monologue

Papua New Guinea

December 2015

Dear Praying Friends,

We rejoice in things accomplished in this past year, and are really excited about the next one! One of the biggest blessings of the past year has been the distribution of Pidgin/English John and Romans booklets in over 32 villages! We have covered the coastline between ourselves and Ihu Station. Here is a map of that area, push pins marking many of those places:

(In a future update, I will show you a map of the country, marking where John/Romans have been shared!) We have this map hanging on a wall in the classroom as an encouragement to the students in their evangelistic efforts. Baimuru is near the top left hand of the picture, the white pin. The last outreach the men took before school finished was to Kikori, a well populated village, off the map, as far to the northwest of us as the farthest southeast push pin! The guys had a wonderful trip, giving out 4800 John and Romans. People were eager to receive them, and

many found a shady place immediately and sat down to begin reading! The students want to take a trip back there early in the next school year as they would still like to visit the hospital, the high school, and some outlying villages with booklets.

Another big blessing was the granting of our 99 year property lease by the government! This has actually been a 14 year process, started by Missionary Ted Mullins. I took the information he had already collected and began the long, expensive process. It is amazing how many people need to approve and/or record this decision! Several times, it seemed like the news I received indicated that my request was hopeless. One time my entire file was lost! But our faithful God just kept moving things along, through one office, then another, past a cranky secretary, right by a committee member that would have preferred I be a big income generating company, and over the top of an official that said in the newspaper that no leases would be granted in 2015!

News from PNG!

We have been consistently improving the grounds here. Projects the first two years have been focused around the classroom and student housing. This coming year our primary physical project will be the fencing of our 12 acres. Please pray with us about this project, not only meeting the cost, but wisdom for the right style and materials, and the obtaining of them. Remember, no Home Depot or Lowes here! I would like very much to make this a safer place for our students and also to protect the gardens that not only supply their food, but provide them a small income to survive on while at school.

A recent blessing has been the return of RAIN after 7 months of drought! For a week now we have been getting night time rains. The ground in the garden can be worked and we actually have been able to do some planting!

Probably our most anticipated event of 2016 is a GRADUATION and ORDINATION!! In February our 9 students will begin their third and final year of training. I believe two of the men will be ready to be ordained upon completion of their schooling. What a blessing it would be if some of you would take the challenge of daily praying for these nine, that none would be sifted by the Enemy, and all would be greatly used in God's service.
